STATE CAPITAL TO PORTLAND.

Change of sentiment in Portland's favor since her proposition became known. Portland practically gives the State a Capitol building if the people so vote.

Now that the people throughout the State are beginning to hear from Portland's side of the case, the misunderstanding due to the misleading statements of those who have assumed to tell her story for her, are being brushed aside.

Reader, who are your informants?
What have they told you?

Have they told you that the Governor in his message pointed out that "something must be done at once" to the old State House?

Have they told you that \$500,000 must be expended by the State upon either the old State House or upon one somewhere else?

Have they told you that the bill before the Senate favoring the removal of the Capital LIMITS the total expense of the new Capital at Portland to \$500,000?

Have they told you that Portland offers as a gift to the State more than the old State House ever cost the State?

Have they told you that the old State House will not be lost to the State, but can be immediately utilized for some other purpose?

Have they told you that the records of the State, of priceless value, are menaced by the chances of fire, and that their loss could not be replaced by money?

Have they told you that a modern fireproof building is the only safeguard for and solution of the problem of how to protect the records?

Have they told you that your taxes will not be raised one penny?

If they have not, they should, for all these points, with others, are embodied in the bill before the Senate!

The simple truth of the whole matter is that Portland will build for the State a magnificent fireproof capitol building within her confines of which every citizen of Maine will be proud without increase of taxes, provided that the people vote at a special election that the seat of government for the State of Maine be changed to Portland.

This is a matter of Business and not of Sentiment.

Can the Legislature afford or the People afford to ignore Portland's offer, or fail to grasp the opportunity.

Cut on this line here.

To Hon. _____, County,
Representative from _____,
State House, Augusta, Maine.

Dear Sir:—
Believing that the question of the removal of the seat of government from Augusta to Portland should be submitted to the people, I most earnestly request that you will use your vote to secure a referendum to the people on this vitally important matter and will use your influence with any other member that you can.

Sincerely yours,

Supreme Judicial Court.

(Continued from page 1.)

sol in the case were Hon. John P. Swasey for the plaintiff and Wright & Wheeler for defense.
Uncle J. J. Fuller of Hebron is attending court and has a case to be heard. Some 44 years ago he made an agreement with his son, Jesse E. Fuller, to care for him and his wife and receive certain pieces of his real estate. The papers were made by counsel in due form, and the last given on the property for their maintenance. The real estate is situated at East Hebron and was in excess of \$1,000 in value. Uncle Fuller contended that his son, Jesse, has not carried out in good faith his part of the agreement, and he takes the contention to court for adjustment. Hon. J. P. Swasey is attorney for him and Wright & Wheeler for the son.

Uncle Fuller is a familiar figure in the court room. He is 82 years old and rather corpulent. He is bright and active and possessed of a striking personality. He was "in trade" over 40 years, and postmaster for 16 years at East Hebron and accumulated considerable property. Some dozen years ago his buildings were destroyed by fire and he moved to Norway and bought the "bee hive," Water street, making several additions to it and opened a store in part of it, styling himself as "the farmer's friend."
Uncle Fuller's wife have been blind about 12 years. They have a family of nine children now living, 11 grandchildren and three great-grandchildren. Mr. Fuller has two daughters, Cora M. Hopkins and Alta A. Wiley of Vinalhaven, with whom he spends considerable time.

Court Temperance Meeting.

The regular court temperance meeting was held at the court house, Tuesday evening, with nearly 200 people present. Clerk of Courts Charles E. Whitman presided at the meeting. Prayer was offered by Rev. J. W. Chesbro, pastor of the Baptist church of South Paris. Several selections were sung by the Schubert Quartette. In his remarks Judge Whitman stated that he objected to the matter of prohibition being mixed with politics as he considered it would be if resubmitted to the people. He made comments with this and other States.

Rev. B. S. Riddout, who is ever alert on the cause of temperance and other causes, gave a stirring address in favor of prohibition. He recommended the organizing of temperance societies and a crusade of pledge signing throughout the State.

Alton C. Wheeler stated that he was a Republican who believed in prohibition. Do not believe that we can afford to tamper with such a question and resubmit it to the people.

A. E. Morse, the popular reader, gave a fine temperance reading that was rendered in his usual excellent manner.

Rev. H. A. Clifford was called upon and made some interesting statement. At this time Judge Whitman was obliged to leave and Rev. J. W. Chesbro took the chair.

Rev. A. S. Bisbee was one of the enforcement deputies at Rumford Falls last summer and a man of wide experience, and was a new speaker at the temperance meeting. He was born among the hills of old Oxford county. He spoke highly of the Maine law and considered that there is nothing better for the cause of temperance.

Court Notes.

There was circulated at the court house Tuesday morning a copy of the bill which has recently been passed, which provides for three terms of court in Oxford county, one to be held annually the second Tuesday of May at Rumford Falls. The March and October terms will be held at South Paris as heretofore.

Ruth Tucker of West Paris is assisting Judge Peabody in stopping at the Andrews House during the term. Probably two of the oldest court officers in Maine if not in New England are on duty at the Oxford County Court.

They are H. B. Hammond, who has been court officer for 44 years. Mr. Hammond attends to his duties with an alertness and spirit that would do credit to a much younger man, he rarely makes a mistake. W. A. Barrows was until 2 years ago messenger for 31 continuous years. He was appointed judge this year and is perfectly at home in the position. Hardly a member of the bar that was prominent at the court at the time when these officers began their duties is seen there now. Many of them have passed on to the higher and grander court where all expect to meet again.

Norway and Vicinity.

(Continued from page 1.)

Temperance meeting held at G. A. R. hall, Monday evening, proved a marked success. Mr. Brooks gave a clear explanation of the order of Good Templars, having belonged to the order for twenty years and most of that time in active work in the order, having passed through the chair of the District Lodge and an officer in the Grand Lodge, and for several years a State deputy and organizer.

Mr. Brooks spoke of the origin and growth of the order of I. O. G. T. and said it was originated in 1851 in the State of New York, through the efforts of a few young men, who recognized and desired to counteract the evils of the saloon. Since that time it has spread over the whole civilized globe and is now the largest temperance organization in the world. It's ritual has been translated into sixteen different languages, and is being used by forty distinct nations, all of whom work under the same password, one pledge and the same signs of recognition, the world over.

He spoke of the beautiful ceremonies, drawn largely from Scripture, in the ritual and representing the highest type of moral and religious character, and that the meetings are conducted on strict parliamentary rules, times set apart for social intercourse and enjoyment, and all members are made to feel at home.

Mr. Brooks spoke of the pledge of total abstinence from all that could injure a healthy public opinion upon the subject, the election of good, honest men to administer the laws, and persistency to save individuals and communities from this awful curse of intemperance, until success is complete and universal.

And that the order is not only for men, and women but boys and girls. It saves our young men from cheap drinks that deceive so many, that are the primary steps to the drunkard's grave. Save our young people, we save our country, church and homes. In conclusion he said it was his duty as a Christian man to do all in his power to stop the awful giant evil in the land. He spoke of the cost to the United States annually, and over the land, suffering of humanity all over the land, blighted homes, broken-hearted wives and mothers, and pauperized children, the victims of the liquor traffic. He believed it the duty of every patriot and every Christian to do all he can to help on the good work of this organization.

Mr. Riddout and Mr. Cotton both gave hearty endorsement in their remarks that followed of the need of such an order in town, and would give their hearty support, as also will S. G. Davis, who was not present. A hearty response followed from the good number present, when a vote was taken to organize a lodge and thirty or more names have already been subscribed for charter members.

The order will be instituted probably next week. Look for notice when and where, and become a charter member if you can endorse such principles and help save your brother.
